# ARTISTIC CREATIVITY

---

4 Creativities Project  
№2019-1-BG01-KA201-062354

## INTRODUCTION

The aim of FCREATIVITIES project is to improve the teachers' abilities to generate a creative education, leading to the creation of students who are able to think, analyze and solve daily problems. We **will develop new artistic skills** and competencies through the incorporation of new proposals, spaces, methodologies, and resources that will increase the students' ability, creativity and the skills for innovation. These activities will be used **with 10 to 12 years old students**, promoting their motivation and creativity. The activities will be composed for **six workshops** which will contain the different activities that we will elaborate with our students.

With the **artistic creativity** promotion we will improve the artistic capacity of our students and the ability to express their desires, emotions and fears. With a boost in artistic creativity, children will create their own "products". This type of artistic expression will support the development intelligence in students. Artistic creativity will take place through different categories of workshops: workshop for the development of visual expression; workshop for the development of verbal expression and workshop for the development of body expression.

The workshops for visual, verbal and body expression will be the following ones: **dreams collage; one color, one feeling; experimenting with different graphic and artistic techniques (color pencils, crayons, felt-tips, cardboards, paintings...); collaborative drawings through a sub-real game of exquisite corpses; we are poets; express emotions with the body.**

Artistic activity will be **boosted through creativity, self-discovery and emotions**. That will lead students to express their desires.

## **Title of the workshop**

*Which emotion am I? – Workshop on body emotions*

## **Description and artistic values in everyday life**

Children learn, develop critical skills, and have fun when provided the opportunity for creative, artistic expression. Body language impacts communication. Your posture can make you appear confident. Differences in how you stand can change the way people perceive you. Body language helps establish the mood of the conversation and express emotions in or out of the classroom. The process of creativity is an amazing process to witness. Creative expression helps children articulate their feelings and thoughts indoor or outdoor.

## **Aims**

- 1. Promote self-discovery in children's creativity and learning*
- 2. Increasing the students' artistic creativity and interest for arts*
- 3. Make full use of practical workshops and strengthen body emotions*
- 4. Foster interactivity and dialogue in the classroom*
- 5. Enhance the teachers' abilities to build a more "artistic" classroom etc.*

## Steps we must follow

The following steps are required to carry out the workshop in a practical, intuitive, and artistic way:

1) Match the sentences on the left with their corresponding responses on the right.

A. I am hungry	Let's have some delicious steak!
B. I am thirsty	Let me clarify things for you. Relax! There is nothing to worry about!
C. I am exhausted	Calm down! Do not lose hope!
D. I am angry	Go and rest!
E. I am sleepy	Let's go out and drink some water!

2) Find the right image for each feeling or body emotion.

3) Now, let's make the workshop more challenging. How do you think these people are feeling? Why do you think that? Discuss with your classmate.
