

INTELLECTUAL OUTPUT 04

ARTISTIC CREATIVITY

4 Creativities Project
№2019-1-BG01-KA201-062354

INTRODUCTION

The aim of FCREATIVITIES project is to improve the teachers' abilities to generate a creative education, leading to the creation of students who are able to think, analyze and solve daily problems. We **will develop new artistic skills** and competencies through the incorporation of new proposals, spaces, methodologies, and resources that will increase the students' ability, creativity and the skills for innovation. These activities will be used **with 10 to 12 years old students**, promoting their motivation and creativity. The activities will be composed for **six workshops** which will contain the different activities that we will elaborate with our students.

With the **artistic creativity** promotion we will improve the artistic capacity of our students and the ability to express their desires, emotions and fears. With a boost in artistic creativity, children will create their own "products". This type of artistic expression will support the development intelligence in students. Artistic creativity will take place through different categories of workshops: workshop for the development of visual expression; workshop for the development of verbal expression and workshop for the development of body expression.

The workshops for visual, verbal and body expression will be the following ones: **dreams collage; one colour, one feeling; experimenting with different graphic and artistic techniques (colour pencils, crayons, felt-tips, cardboards, paintings...); collaborative drawings through a sub-real game of exquisite corpses; we are poets; express emotions with the body.**

Artistic activity will be **boosted through creativity, self-discovery and emotions**. That will lead students to express their desires.

Title of the workshop

Reopening

Description and artistic values in everyday life

Reopening is a word that is part of the most important minds of 2020 defined by the Oxford Dictionary. The idea of this activity is to think about how to give voice to this so special word through art.

Aims

1. Development of creativity
2. Developing the imagination

Steps we must follow

1. White A4 sheet is folded in half lengthwise
2. On one half , lengthwise we write the word **Reopening** with a graphite pencil
3. Fold the paper again, leaving the written word inside. And with a line we have to go several times on the part with the text as we press. The purpose is to print the text on the other side as well. This technique is called symmetrical art.
4. Repeat with a pencil the already printed letters.
5. And now comes the fun part. He will have to turn this image into a fairy creature by painting his eyes, nose, teeth or whatever you want

Co-funded by the
Erasmus+ Programme
of the European Union

6. Color it so that it becomes the craziest creature

This project has been funded with support from the European Commission. This publication [communication] reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

Materials needed

A4 sheet

pencil

line

colored pencils

felt-tip pens

makers

Tips

In order to carry out the workshop successfully the following tips are shared:

- *Please make sure that the notes/instructions are complete*
- *Please make sure you choose the best time & place for inspiration*
