4 Creativities Project  
№2019-1-BG01-KA201-062354

## INTRODUCTION

The aim of FCREATIVITIES project is to improve the teachers' abilities to generate a creative education, leading to the creation of students who are able to think, analyze and solve daily problems. We **will develop new artistic skills** and competencies through the incorporation of new proposals, spaces, methodologies, and resources that will increase the students' ability, creativity and the skills for innovation. These activities will be used **with 10 to 12 years old students**, promoting their motivation and creativity. The activities will be composed for **six workshops** which will contain the different activities that we will elaborate with our students.

With the **artistic creativity** promotion we will improve the artistic capacity of our students and the ability to express their desires, emotions and fears. With a boost in artistic creativity, children will create their own "products". This type of artistic expression will support the development intelligence in students. Artistic creativity will take place through different categories of workshops: workshop for the development of visual expression; workshop for the development of verbal expression and workshop for the development of body expression.

The workshops for visual, verbal and body expression will be the following ones: **dreams collage; one colour, one feeling; experimenting with different graphic and artistic techniques (colour pencils, crayons, felt-tips, cardboards, paintings...); collaborative drawings through a sub-real game of exquisite corpses; we are poets; express emotions with the body.**

Artistic activity will be **boosted through creativity, self-discovery and emotions**. That will lead students to express their desires.

## Title of the workshop

### Sleeping bears

## Description and artistic values in everyday life

The idea of this project is to use the recently popular face masks, protecting us from Covid 19 for something creative and art. Many of them go to waste and pollute the environment.

## Aims

1. Development of creativity
2. Developing the imagination
- 3 Think about recycling and a cleaner planet

## Steps we must follow

1. The first step is to cut a white rubber band in half on the mask with scissors
2. Then glue the mask in the center of an A4 sheet.
- 3 . The colored part of the mask is the blanket.

The elastic that remained intact forms something like a circle - this will be the head of the bear.

We fold the other two halves of the elastic in semicircles to form the paws of the bear, which have passed under the blanket.

4. Now we have to draw the snout, the nose and the sleeping eyes of the bear, the ears, the paws, pillow, bed and sheets.

5. Finally, we need to color everything as we wish

## Materials needed

A4 sheet

Face mask

scissors

glue

pencils, colored pencils, markers

eraser

## Tips

In order to carry out the workshop successfully the following tips are shared:

- *Please make sure that the notes/instructions are complete*
- *Please make sure you choose the best time & place for inspiration*
