4 Creativities Project

2019-1-BG01-KA201-062354

THE IDEA

The main idea of the 4 Creativities project is to create a **unique innovative educational tool** to support **teachers** in their daily activities to provide high quality of teaching and present contemporary learning opportunities to their **students**.

The project results are aimed to be used by teachers working with with 10-12 year old students.

ABOUT THE PROJECT

Results

A compendium of 24 creative activities focused on the development and improvement of four different types of creativity: **mathematical**, **linguistic**, **scientific** and **artistic**.

Aim

To improve the teachers' abilities to generate a creative education, leading to the creation of students who are able to think, analyze and solve daily problems.

”

By improving the teaching practice we aim to enrich the current environment in schools in Europe by means of incorporating new methodologies, experiences and knowledge in the formal educational system.
